## MOBILE PASSION: WESTFALIA

Innovation and competence – Westfalia, the name stands like no other for mobile passion. For more than six decades, not only have we been involved in the construction of leisure vehicles, we have also been a constant innovator in the industry. New solutions, both in terms of materials and functions, have shaped our actions since the beginning.

This competence has also made us a reliable OEM partner for the automotive industry. Be it Daimler or Ford, Westfalia quality is a benchmark that is especially valued even by these companies.

Even today, the traditional company from Westphalia stands for motorhomes of a special kind: uncompromising quality, durability, everyday suitability and above all passenger protection in each individual model.

A claim that is also reflected in the motto of the premium brand: Mobile Passion.

# Additional storage space? Sure thing!

Motorhomes should always be an optimal combination of volume and vehicle length. Particularly in the case of compact vans, the question arises of where to put bulky items such as sports equipment or roof boxes. Because we at Westfalia have been working with this class for almost 60 years, needless to say, we also have the accessories to overcome these challenges. Whether it is a short trip or an extensive discovery tour, Westfalia offers roof racks that provide additional storage space and are ready for anything.

The telescopic support feet are very easy to fold out.

# This is how you can ensure your privacy.

**Sun shade sail Westfalia Flexo:** A sun shade sail that can be used flexibly. The cut and features allow for a variable depth, thus making the sun shade sail ideal for travel and for use on a wide variety of plot sizes. Sun protection can be optimised by lowering the tip of the sun shade sail. Quick and easy to set up, the sun shade sail attaches to the vehicle via the retractable piping. **Tailgate privacy screen:** The privacy screen, which can be installed quickly and is equipped with two zippers, offers you the extension of the living area. It protects you from unwanted glances and sunlight. Ideal for using the outdoor shower and toilet.
